H. T. LOGAN.

Rev. O. P. Bush will begin a protracted meeting at Buckeye on Sunday next. He will have able assistance.

The Young Ladies Circle of the Christian church will serve refreshments on the day of the Fall openings. The exact date will be announced in the Record later.

We are glad to learn that our friend Prof. B. F. Evans, has a splendid school near Wallace, and being an experienced teacher, we guarantee that he will give value received.

### Sale of Goods.

J. M. Meadows has sold out his grocery stock on Depot street to a country merchant living on Danville pike. Mr. and Mrs. Meadows will remain in Lancaster on account of the fine school advantages for their sons.

### Canning Factory.

Josh Daniels is conducting an up-to-date canning factory, near the Water Works, in which he has canned quite a lot of tomatoes and fruit. This is a profitable business and he will doubtless receive the support and encouragement of the public.

### Whitaker.

Mr. Whitaker whose home was in a few miles of town, on Danville pike died on Friday after a lingering illness of tuberculosis. The interment was on Saturday at Buckeye. The deceased is survived by his wife and two children. This makes the fourth death in the relationship in less than six months.

### Kitchen Shower.

On last Friday night, a "Kitchen Shower" was given to Mr. and Mrs. Nichols by Woman's Sunday School class and the Young Ladies' Missionary Circle, of which she is a member. The ladies were joined by their husbands which made a jolly crowd, as they marched from the square to the home, with the music of kitchen utensils and bells. After the crowd indulged in the games "kitchen furniture" and other similar amusements, refreshments were served.

### Two More Land Sales.

Hughes & Swinebroad, our real estate men, report that they have just sold for George A. & John M. Eager their farm of 70 acres on the Lexington pike 4 miles from Lancaster and for Thomas Kuhlman his farm of 102 acres adjoining the Eager land. The sale was made by them to Jas. I. Hamilton. Price private. It looks like if any one wants to sell a farm all that is necessary is to let Hughes & Swinebroad list it.

### Pool Or Not Pool? That Is The Question.

A large and appreciative audience greeted Senator Bradley and Mr. LeBus at the court house Monday and more interest was manifested in pooling tobacco than was expected. The principal arguments advanced in favor of the pool were:

- 1 The pool has succeeded contrary to the predictions of the wise ones.
- 2 The trust can fix the price on Burley tobacco unless it is pooled.
- 3 The farmers in the pools of 1906 and 1907 got \$3,000,000 more for their tobacco than the same amount of tobacco brought out of the pool.
- 4 The trust made \$14,000,000 clear profit last year and that is more than they paid for the tobacco. The farmer is entitled to a larger share of the profits.
- 5 If the farmers pool they can price their tobacco. If they do not pool the trust fixes the price.
- 6 The increased price of tobacco has caused an increased price in land. Young men have bought homes at a high price expecting to pay for them at the present price of tobacco. If the pool fails and the price of tobacco drops the price of land will go down also and will cause great loss to many hard working, deserving young men.

After the speaking 8 or ten men, representing about 60 acres of tobacco, pooled their crops. Of course this is a small per cent of the crop, and there are many who now oppose the pool, yet the promoters believe that, when the proposition is fully understood, a majority of the growers will pool their tobacco. It is generally believed that the principle of the pool is right and that we are under obligations to those who pooled elsewhere and made the price of our tobacco higher than it ever was, but there are many who believe that it is costing too much to maintain the pool, and they further claim that a sure means, to advance money to tenants and growers, of limited funds, would be absolutely necessary. It is a profound question and we hope that it will be settled so as to insure the greatest good to the county.

### Dunn-Orrill.

Miss Ethel Dunn, daughter of the late Benjamin Dunn, and Mr. Ray Orrill of White City, Florida, were married Wednesday at 8:30 a. m., at the handsome country residence of Mr. and Mrs. W. A. Price. Elder F. M. Tindler performed the ceremony.

Only the immediate relatives and a few intimate friends were present. The bride was attired in a becoming blue tailored suit and hat to match and looked handsome for the all important and auspicious occasion.

Miss Irene Romans and Mr. John Dunn served as attendants and after the ceremony, an elaborate bridal breakfast was given by the bride's mother, Mrs. W. A. Price.

The groom is an enterprising young Floridan, and the cultivator of an orange grove, and with such an industrious wife and help-meet as his Kentucky bride, has a flattering prospect of success and happiness.

### School Opening.

The Lancaster School opened Monday morning with great promise of a good years work. Devotional exercises were conducted by Rev. F. M. Tindler. Supt. Bridges followed in a talk on the value and purpose of an education, in which he showed that the times demand more from year to year. He said that an education meant for the young man greater learning capacity, a better place in society, and increased power of enjoyment of the best in the world. Emphasis was put upon the necessity of first looking to the physical welfare of the child, the ideal being a perfect body in which the well trained mind may dwell.

Mr. S. D. Cochran as the spokesman for the School Board congratulated the patrons on the strong faculty of teachers which the school has, commending their work for the past two years, and expressing his confidence in the continued improvement of the school under the ten months school year.

In an earnest talk Mr. G. B. Swinebroad urged the co-operation of patrons with teachers.

Miss Lillian Sanford the new teacher of the fourth and fifth grades, acknowledged her introduction with a graceful speech, and made a favorable impression on all present.

A large number of patrons, friends, and former students were present.

Her Vocation.

She has looks, youth, money and little trace of the maternal instinct—she was born to be a widow.—From "An Adventure in Exile," by Richard Duffy.

Postmasters Troubles.

Positively no letter will be delivered until received. If you don't get your letter or paper the day you expect it, have the postmaster look through all the boxes, and the cellar also. It ought to be there somewhere, and he likes to do it just to please you. If your friends don't write, cuss the postmaster; he is to blame. If he tells you there is no mail for you put on a grievous expression and say "There ought to be some." He is probably hiding your mail for the pleasure of having you call for it six or seven times a day, and after every freight and handcar. Ask him to look again.—Ashland Commercial.

The twelve year-old son of Mr. Wm. Bland died Tuesday after an illness of several weeks due to typhoid fever.

### Hotel Stock.

Those who have stock in the Kentarian hotel must bring it to R. Zimmer at once and collect 5 per cent which will be the first payment on said stock.

### Notice.

Application will be made to the Board of Prison Commissioners for the parole of Wm. Humber in October, on the ground of ill health.

9-10-25  
Robt Burnsido.

### Important.

A convention of Central Kentucky Commercial Clubs will be held in Lexington on September 16 and 17, for the purpose of cementing the interests of the people of this section. As Garrard is foremost in agricultural interests, we should not neglect this opportunity to be brought in contact with other counties for the purpose of inviting capital and new blood in to our community. Having no organized club let us at least send a strong delegation to Lexington.

### Close Of Institute.

We are indebted to Miss Lucretia Skinner, secretary, for notes on the Institute, from which we condense the following:

On Thursday Prof. Bridges gave a splendid talk on Geography, in which he advised teaching by topics, and after learning home geography to branch out to Europe, see how we are connected with them, compare our physical features, climate and homes with theirs.

Miss Patridge then took up language, saying that everytime you think a new thought a path has to be cut through your brain, and emotion tends to fix an impression. She claimed that a child should not be corrected in public, and made many other valuable suggestions from which the teachers received much benefit.

Prof. Rawlings said that Miss Patridge found her doctrine in the bible where the command is given to go preach the gospel. He said it takes a very tactful person to be able to criticize and correct another's faults just as it takes a master hand to use the text books that were made by master hands. He gave some very helpful methods and devices to be used in the teaching of history. Miss Patridge gave methods by which she prevents whispering in the school room.

Rev. C. C. Brown gave a splendid discourse on the moral side of man.

Prof. Rawlings paid a beautiful tribute to women. He said that "teaching a child to discover thought is education."

Friday:—Mr. Boothe gave some methods of teaching history and related some interesting facts in connection with dates. Discipline was then discussed at length, then followed farewell and appreciative words from Prof. Bridges, Miss Wheeler, Miss Patridge and Mr. Evans, who paid quite a tribute to the CENTRAL RECORD as an educational factor. The resolutions were then read by Prof. O. R. Fallis.

### RESOLUTIONS.

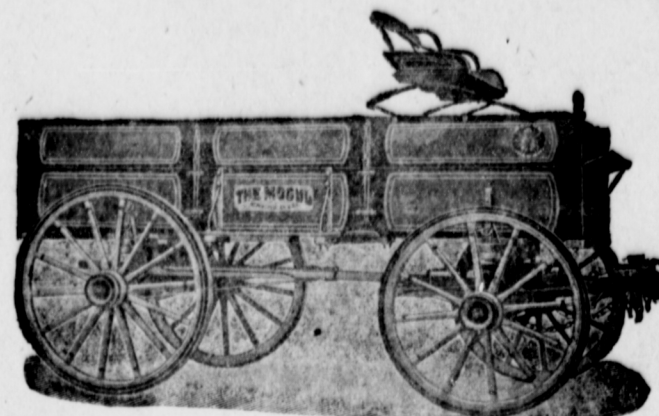

In appreciation of the many courtesies and benefits received by the members of the Joint County Institute of Boyle and Garrard counties, we as members desire to express our gratitude for the same by the following resolutions:

- 1 Resolved; that special heartfelt thanks be extended to the citizens of the city of Lancaster for the exceeding hospitality and magnificent entertainment we have received in the homes of the city, and especially to Mrs. Dr. Kinnaird and the other members of the Woman's Club for the admirable reception of Tuesday evening.
- 2 Resolved; that due appreciation be extended to the Board of Trustees of the Graded School for the privilege of holding the Institute in the chapel of the City School building.
- 3 Resolved; that we heartily endorse and duly appreciate the many practical suggestions made by our worthy instructors, Miss Lella E. Patridge and Prof. D. W. Bridges and Supt. J. W. Rawlings.
- 4 Resolved; that a special vote of thanks be extended to Miss Wheeler, Prof. S. H. Nicholl, Rev. C. C. Brown, Prof. Booth and others who have helped to make our Institute a success.
- 5 Resolved; that we recommend that the next General Assembly pass such a law that will not cause the teachers attending the State Normal or other professional schools for teachers for at least four weeks during the summer to be compelled to leave the same to attend the county institute, and that some proper credit be given for such attendance.
- 6 Resolved; that we favor the Joint County Institute and heartily recommend the continuance of the same.
- 7 Resolved; that we, the teachers of Boyle and Garrard counties, express our thanks to the Superintendents of our respective counties: namely, to Hon. J. W. Rawlings, of Boyle and Miss Jennie Higgins, of Garrard, for their great interest in our school work, their excellent supervision of the public schools, their untiring efforts in explaining to us the new school law and in making this institute successful and enjoyable.

### U. D. C.

On Monday afternoon September 6, the Mary Walker Price Chapter U. D. C. met at the home of Mrs. F. P. Frisbie and held service in memory of Mrs. Elizabeth Leavell Doty—a member and officer of the local chapter since its organization—in whose death, on July 31, the body suffered an irreparable loss.

After reading the Ritual and prayer, the President, Mrs. M. P. Frisbie, gave brief talk stating the purpose of the meeting and paying high tribute to the many virtues of the deceased Daughter.

Mrs. F. P. Frisbie read two poems one entitled "Death", the other, "Gone"—after which Mrs. B. F. Hudson, the historian, read a sketch of the life of Mrs. Doty, closing with a merited eulogy to her christian character, as daughter, wife, mother, not omitting her loyalty to the cause she believed was right and her faithful, efficient service as a Daughter of the Confederacy.

Mrs. Fannie Farra then made a touching prayer in which she pleaded for divine compassion upon the bereaved family and for a continuance of the influence of her gentle ministry in our midst.

In her absence, the Treasurer, Mrs. Royston, sent a poem to be read by Mrs. Gaina.

The program was closed with the reading of that beautiful comforting poem, "Let not your hearts be troubled" by Mrs. E. C. Gaines.

After a committee on resolutions was named and some urgent business attended to the body was dismissed with the Mizpah.

What would you be willing to give, man or woman, if you knew how to change your gray hairs to the color of youth, and, if you are a woman, to increase the length and vigor and glossy texture of your hair to an extent, what you ardently crave, but have hitherto as your wildest dreams never thought attainable.

John Birkholz, Omaha City, says: "I used Q-Ban Hair Restorer two weeks, the gray hairs I had have reassumed their natural color."

Lucella Mason, this city, says: "Two applications of Q-Ban Hair Tonic stopped my hair coming out, and cured completely an intense itching of the scalp, and removed all dandruff from which I have suffered for years."

We have those testimonials on file in our office signed as above. Q-Ban Hair Restorer and Q-Ban Hair Tonic are not idle dreams, they do the work. If six bottles of Q-Ban Hair Restorer (and it only requires six bottles for the most obdurate case that has ever been treated) fails to bring back your gray hairs to the natural color of youth, your money will be refunded by the druggist of whom you buy the preparation. You know your druggist—ask him. Every gentlewoman, every well-bred and well-groomed man should use the Q-Ban Hair Tonic, it will save what hair you have; will keep the scalp in healthy condition and will increase the vigor, length and glossiness of the hair. To the needy it is a necessity, to the gentleman or gentlewoman a fine habit. Ask your druggist.

## ANNOUNCEMENT.

To the Republican party of Garrard county: I am the Republican nominee for County Attorney and will appreciate your support. B. D. Herndon.

We appreciate the comps sent us by Secretary Newman, of the State Fair, which is to be held in Louisville, Sept. 13th to 18th.

The Kentucky State Journal served the news, of the fight between the soldiers and citizens at Frankfort, while it was hot. A trivial quarrel resulted in the death of two and wounding several.

Senator Bob Taylor, of Tennessee, declares that Senator Culbertson, of Texas, is the logical Democratic nominee for President in 1912, and that the keynote of the platform should be "Tariff for Revenue Only."

And now Commander Peary flashes to the world that he discovered the North Pole April 6th 1909, while Cook's discovery was made April 21st 1908, which makes Cook the real hero.

as the discovery could not have been made but once. However they are both Americans and it is a national pride in which we all indulge.

A bill to be submitted to the Missouri legislature provides that a citizen shall be entitled to one vote for every child born in his family. A good law. The Democrats will win if it becomes a law in Kentucky.

September 16 has been designated as Kentucky Day, Press Day and Good Roads Day at the Kentucky State Fair. This combination will likely draw a large crowd, as the Press and good roads mean much toward the prosperity and development of the State.

The house-fly, once supposed to be a scavenger of the air is now known as the "typhoid fly." There is no room for doubt that flies kill a much greater number of human beings than all of the beasts of prey, with all of the poisonous serpents added. They spread diseases which slay their hundreds, while huge and powerful brutes kill single victims.

Editor Harry Sommers, of the Elizabethtown News, was quite ill some time ago, in fact his friends were so alarmed that a doctor was called in. The doctor made a hasty examination, and finally, taking hold of Harry's pulse, remarked slowly, "Poor fellow—circulation most gone." Jumping up in bed, Harry shouted, "You're a d-n liar! The News has the largest circulation in Kentucky, and I can prove it."—Richmond Climax.

At the Democratic barbecue at Louisville, Senator McCreary and Congressman Harvey Helm made eloquent appeals for harmony in the Democratic party throughout the State, and the destruction of warring factions. Their advice should be heeded everywhere, and no issue, not adopted by the party, should lead Democrats to violate their solemn obligation to support the party nominees. Every vote, if any, that goes astray is a vote for the Republican party, and that party is sure to support its nominees.

The whole world is moved by the daring feat of Dr. F. A. Cook in his expedition to the North Pole. Royalty, scientists, plebeian and patrician all join in offering congratulations; but our nation is overflowing with joy because he is one of us and accomplished that which has been attempted by other nations for centuries past. About 30,000 square miles have been added to our dominions, by right of discovery, and, while it will not raise hemp, corn or tobacco, we have the proud satisfaction of knowing that the stars and stripes wave there, and we have a corner on ice.

A dispatch from Harrodsburg announces that a mass convention of Republicans put out a full ticket for the offices of Mercer county and endorsed Hon. William Herndon, of this city, for Circuit Judge of this District, he being present and addressing the convention, announced his candidacy for the nomination.

He is well known, having been a practicing attorney for many years, and having been Commonwealth At-

torney for the old Judicial District, in which it was possible to elect a Republican. But the lines have been changed, and the conditions are not at all favorable to one of his political persuasion, and it certainly shows poor judgment to enter the race after the Democratic entry has reached the home stretch. The attempt was certainly made for the sake of keeping up party organization, or the Captain has some poor advisers who are promising more than they can deliver, and who are willing to violate party obligations on account of some personal feelings. Judge Sauley will win by a handsome majority.

## ENTRIES AND EXHIBITS.

Exhibition and Classification of the Kentucky State Fair.

Entries and exhibits of all livestock departments except for horses, mules and jack stock will close Monday, Sept. 6th, at 6:00 p. m., and all other departments prior to Friday, Sept. 10. Entries of horses, mules and jack stock will close positively at 12 o'clock noon the day before the exhibition. There will be a printed program of the entries of horses, jack stock and cattle, together with the name of the owner, name and color of the animal and number of the entry, which must correspond with the number worn by the person in charge of the animal. It is absolutely essential that this information accompany the entry, which must be filed with the secretary before the closing date. Exhibits must be placed by 9 o'clock Monday morning, Sept. 13th, and all exhibitors will be so notified. There are 1,400 different rings in which prizes are offered, and there is a total of over 800 lots.

The horse classification is subdivided into classes suitable for light harness, five-gaited saddle-horses, roadsters, combined harness and five-gaited horses, American carriage horses, three-gaited saddle-horses, combination horses, plantation saddle-horses, high stepping and runabout classes, Shetland ponies and fine horses.

Good premiums are given for both mules and jack stock.

In the beef cattle department, Short-horns, Herefords, Polled Durhams, Aberdeen-Angus and Red Polls are given most liberal classifications. In the Dairy Cattle Department, Jerseys, Holstein-Friesians, Guernseys and Ayrshires are recognized. The swine department includes Berkshires, Poland Chinas, Duroc Jerseys, Chester Whites, Tamworths, Hampshire and Yorkshires. In the sheep department prizes are offered for the following breeds: Shropshires, Southdowns, Oxford, Hampshire, Cotswolds, Dorsets, American Merinos, Delaine Merinos, Ramboulllets, Lincoln, Cheviots and also a class for Angora goats.

The poultry department covers every known standard variety. The same is true of the pigeon department, the prize money for these departments being much larger than last year. The department for vegetables and melons, field seed and grain and tobacco contains classes for almost every product grown on the farm. In horticulture there are over 700 prizes offered for apples, peaches, pears, grapes and miscellaneous fruits. Plants and flowers, one of the most beautiful and attractive exhibits of the State Fair, will be well taken care of this year and will be placed alongside of the women's department. In no department is there a more interesting collection of premiums than in that set aside for woman's work, children's work and table luxuries.

## FINE DAIRY STOCK.

Holstein-Friesians at the Kentucky State Fair.

The Holstein-Friesian has long been known to Kentuckians as a great milk producer, but there has been no concerted action among the breeders of this dairy cow in Kentucky. The fact that the three hospitals for the insane and the state feeble-minded institute at Frankfort have decided to use this breed altogether in their dairies, requiring six or seven hundred cows, is a great stimulus to the breed in Kentucky.

The \$250 donated to the Kentucky State Fair by the Holstein-Friesian Association is in great measure due to Stanley Milward, a member of the board of control for these institutions, and a recognition on the part of the Holstein-Friesian Association of the value such a move would be to this breed of cattle in the state. The asylums will have on exhibition at the Kentucky State Fair some of the best specimens of the black and white dairy cows to be found in the country.

## Students' Judging Contest.

Commissioner M. C. Rankin has offered two sets of prizes for farmer boys in this state and for the students in the Agricultural College. The amount for farmer boys is \$100, to be awarded to the young man who makes the largest score in judging livestock at the State Fair. This money to be used as scholarship to the Agricultural Department of the State University. The contestant to be required to file written opinion, with reasons therefor, on horses, cattle, swine and sheep exhibits. The prize for students' judging contest amounts to \$50, to be divided into \$20, \$15, \$10 and \$5. Competition will be limited to students in the State University. It is the purpose of the commissioner in offering these specials to educate the young men of the state in livestock judging. The requirements are quite liberal, and there is no reason why any bright young man in the state should not enter the contest.

The Louisville public schools will for the first time have an exhibit of the work done in the various grades upon the State Fair grounds this year during the week of Sept. 13-18. The Kentucky State Fair is getting to be more and more an educational institution, and it is hoped before many years to have a great display of the work done in the various schools of the commonwealth.

For catalog, entry blank or other information, write J. W. Newman, Secretary, 320 Paul Jones Building, Louisville, Ky.

## General News.

Dr. Fredrick A. Cook, of Brooklyn, who in July, 1907, departed in search of the North Pole and who had not been heard from for over a year, started the civilized world with a telegram from Lerwick, in the Shetland Islands announcing that he reached the Pole April 21, 1908. In his final dash for the pole Dr. Cook was not accompanied by a white man, four Eskimoes being his only companions. The news of his success is generally credited by scientific men. His discovery of the North Pole was the subject of world-wide comment. Scientists generally pay tribute to the American explorer for his great feat. Danish polar experts, who have an acquaintance with Dr. Cook, are the staunchest believers in the intrepid American's achievement. Some American's are skeptical, among them being Rear Admiral George Melville, retired, who has been in the polar regions, and several of the faculty of the University of Chicago.

Burglars broke into John McGee's store at the corner of Walnut and Fourth streets September 22. Entrance was gained by prizing the rear window open. Several pairs of men's shoes, two grips and a lot of other things are missing. Bloodhounds from Hustonville arrived here early this morning but failed to take the trail. A strong effort will be made to capture the thieves—Danville Advocate.

Dr. D. K. Pearsons, of Chicago, will give \$100,000 to Berea College provided the trustees raise \$400,000 additional. Dr. Pearsons said this would be his last gift of this character.

## SIX GREAT DAYS.

Special Day Program at the Kentucky State Fair.

The special day program is one of the most interesting parts of the State Fair. It will bring many additional thousands of visitors to the Fair. Fred W. Kelsker is the general chairman of the special days' committee. Monday, Sept. 13th, the first day, will be known as school children's day and Louisville Times day. Prof. J. G. Grabbe, state superintendent of public instruction, who has been made chairman of this day's program will make an extraordinary effort to secure a record breaking attendance of school children from the city of Louisville and state of Kentucky. As this is the opening day, the ceremonies will likely include an address by the governor and a number of other distinguished speakers are expected to honor the Fair with their presence on this occasion.

As the naming of each day for the daily papers of Louisville is an innovation in the Special Day program, each paper will try to make its day the biggest, and the power of the press owned in behalf of an institution like this can bring tremendous results. Mr. Robert W. Brown, managing editor of the Times, is vice chairman for the first day. Tuesday, Sept. 14, will be Fraternal Day and Louisville Herald day. Mr. Charles B. Norton is chairman and Mr. George A. Newman, editor of the Herald, is vice chairman.

All the leading fraternal organizations in the state will be asked to join in a grand parade and make this a general reunion for common meeting ground for all the fraternal organizations within the state. On this day the judging of all departments will begin. Horses and mules and cattle will be exhibited in the livestock pavilion. The sheep, swine, poultry and other departments will be judged in separate arenas within their department enclosures.

Wednesday, Sept. 15, will be Louisville and Northern Indiana Day and Courier-Journal day. Mayor James E. Grinstead of Louisville will be chairman; Mayor Jacob Best of New Albany, Mayor E. N. Flynn of Jeffersonville, and Graham Vreeland, managing editor of the Courier-Journal, will be vice chairmen. The mayor of Louisville and the mayors of the two neighboring cities across the river will each issue a half-holiday proclamation. Some of the best horse rings of the week are scheduled for this day. Also jack stock, Hereford and Angus cattle, Ayrshire cattle, Duroc and Chester White swine, Hampshire, Cotswold and Dorset sheep will be judged. Thursday, which has always brought the largest attendance at past fairs, has been very appropriately designated as Kentucky Day, Press Day and Good Roads Day. More Kentuckians will be seen there than on any single day of the fair.

Mr. T. C. Underwood, president of the Kentucky Press Association, is chairman of the day, and will have associated with him all the active and public-spirited newspaper men of the state, which alone should make it a banner day.

Hon. Joseph F. Bosworth, president of the Kentucky Good Roads Association, is vice chairman. As an active campaign for the good roads amendment to the constitution will be waged throughout the state the coming fall, it is likely that some of the big guns for this much needed public improvement will open their first fire at this meeting. President Bosworth believes that nearly all the good roads enthusiasts in the state, which equal a good-sized army, will be on hand. Several rings of horses will be shown in the pavilion, and Shorthorn cattle, Hampshire, Tamworth and Yorkshire swine, American Merino, Delaware Merino, Rambouillet, Lincoln and Cheviot sheep and Angora goats will be judged.

Friday, Sept. 17th, will be Equity Day, Tobacco Growers' Day, Grange Day, Louisville Post Day. Colonel C. M. Barnett, president of the American Society of Equity, will be chairman, and F. P. Wolcott, master of the Kentucky State Grange, and Mr. Hoyt G. Boyle, managing editor of the Post, are vice chairmen. This should certainly be a farmer's day, and if all indications do not fail, the "Sons of the Soil" will be out in greater numbers than was ever known before. The tobacco growers from the dark patch, the Green River district, and the Blue River section, are all coming strong, and each will try to outnumber the other. The Patrons of Husbandry, that noble band of enlightened farmers who have worked so hard for the betterment of agricultural industry in this country, will likely attend in goodly numbers from this and other states. The judging in all departments except horses will be concluded this day, and in the afternoon there will be a grand parade of all livestock winners in the Livestock pavilion. These animals will be decorated with ribbons worn at the fair and other great fairs and expositions of the year, which will form a most pleasing sight for all visitors, and especially enthusiastic lovers of blooded stock.

Saturday, the last day, will be Everybody's Day, and all who have not been included in the foregoing days may be very aptly classed in this.

For catalog, entry blank or other information, write J. W. Newman, Secretary, 320 Paul Jones Building, Louisville, Ky.

Remove the Drudgery of keeping house, by having the Creamery do your churning. They charge only 3 cents a pound, and any surplus is sold for you at far better prices than you can realize for butter made at home.

The uniform golden color, pleasing flavor and exquisite texture are brought out by modern machinery and scientific methods, and can not be equaled by butter made in the old fashioned way. A broad statement, but its truth is borne out by the fact that Creamery butter brings from 25 per cent to 100 per cent more on any market, than the finest country butter.

When we grow grass for pasture, we need a mixture of kinds; it is otherwise if a meadow is desired. It is difficult to do the right kind of harvesting for a meadow if many kinds are used. In seed for a pasture we may mix red-top, timothy, bluegrass, meadow fescue and meadow oat grass to advantage.—Home & Farm.

Some dairymen have an idea that certain foods cause a cow to give richer milk than do other foods. This question has been discussed a great deal, but the best opinion now is that such food does not change the quality of milk. It only increases the quantity and in that way is effective. The last milk drawn is richer than the first milk. A cow also gives richer milk as she goes dry, and a fat cow seems to give some richer milk than a lean cow, but to get more butter fat at will, you must give more and richer food, and thus increase the quantity of milk secreted.

The Federal Good Roads Department states that the direct saving to the farmers of this country from properly constructed roads would be \$250,000,000 annually; that there would be a saving of over \$10,000,000 in marketing the wheat crop alone; of over \$12,000,000 in marketing the corn crop and of \$5,000,000 in marketing the cotton crop. However great the money val-

ue of good roads may appear to be, it is not as important as the educational and social advantages to be derived therefrom by the residents of rural communities. As a rule, the farmers are more wide awake to the necessity of good roads than the residents in the cities, as proper highways affect directly their comfort and prosperity. This is not a problem for a single locality, but concerns vitally the States and the nation.

Have Booth's Balm On Hand.

Rather annoying to find that when some one in the family gets a burn or a scald that there's nothing in the house to ease the excruciating pain. There's nothing on earth so good for burns and scalds as Booth's Balm, the ointment that stops the pain instantly, thoroughly cleanses the sore with its antiseptic properties, and heals in an astonishingly short time.

R. E. McRoberts sells it for 25 cents a large box, and it ought to be in every home in Lancaster ready for instant use.

Booth's Balm also cures pimples, blackheads, chapped hands on face, itching skin, eczema, earache, sore chest and throat, piles, chaffing or itching of skin. It clears the complexion in 24 hours and makes it stay clear.
